TABLE OF CONTENTS

A. THE ECU AND THE EMS

1. Composition of the ecu basket, central rates and intervention limits
2. Evolution of the EMS
3. Swap operations of the EC central banks with the EMCF
4. Ecu exchange rates

B. ECU SECURITIES STATISTICS: SHORT TERM DEBT

1. Italian Treasury Bills: Details of issues
2. UK Treasury Bills: Details of the results of tenders
3. UK Treasury Bills: Turnover statistics
4. UK Treasury Notes: Details of the results of tenders

C. ECU SECURITIES STATISTICS: MEDIUM AND LONG TERM DEBT

1. French OATs: Details of issues
2. French BTANs : Details of issues
3. Italian CTEs: Details of issues
4. Greek ecu-linked bonds: Details of issues
5. Volume of all ecu bond issues since 1981
6. Statistics on turnover by instruments
7. Most traded fixed-income bonds
8. Final maturity of ecu bonds
9. Top ten ecu book runners & top ten ecu issuers
10. JP MORGAN total return ecu index (graph)

D. FINANCIAL FUTURES

1. Matif ecu bond futures contracts: Open interest, volumes traded and deliverable bonds pools
2. Matif option on the ecu bond futures contract: Open interest and volumes traded
3. Liffe short term interest rate futures in ecu: Open interest and volumes traded
4. Finex exchange rate futures: Open interest and volumes traded

E. ECU CLEARING

1. Clearing of private banking transactions in ecu through the Swift network
2. Rate applied to the clearing of private ecu banking transactions
3. Settlement rates within the ecu banking clearing system

F. OPERATION RATES OF THE EMCF, ECU INTEREST RATES AND YIELDS

1. Operation rates of the EMCF, interest rates and yields of ecu investments.
2. Ecu LIBOR rates
3. Ecu interest rate swaps

G. CONSUMER PRICE INDICES IN ECU IN EEC COUNTRIES

1. Annual data (1985 = 100)
2. Yearly growth rates of consumer price indices in ecu
3. Monthly basis
4. Monthly growth rates of consumer price indices in ecu

THE ECU AND THE EMS

- **Composition of the ecu basket, central rates and intervention limits**
 - Composition of the ecu basket at the date of creation and at the dates of recompositions
 - Bilateral central rates and intervention limits in use since 02/08/1993
 - Weights of currencies calculated on the basis of current central rates (graph)

- **Evolution of the EMS**
 - Ecu central rates of EMS currencies at the times of recompositions and realignments since 1979
 - Realignments of ERM currencies as percentages since 1979
 - Weights as percentages of EMS currencies in the ecu basket at the times of recompositions and realignments since 1979
 - Weights of EMS currencies calculated on the central rates since 14/5/93 (graph)

- **Swap operations of the EC central banks with the EMCF**
 - Details of Gold,USD/ecu swap operations between EC central banks and the EMCF on a quarterly basis since April 1979
 - Amounts of gold and USD swapped for ecus with the EMCF by EC central banks (graph)

- **Ecu exchange rates**
 - Yearly average exchange rates of the ecu against some twenty currencies since 1979
 - End of year exchange rates of the ecu against some twenty currencies since 1979
 - Monthly average exchange rates of the ecu against some twenty currencies for the current and previous two years¹
 - Monthly average exchange rates of the ecu from 1985 (graph)

¹ The same information from 1979 is available upon request.

last update 14/05/1993

a) Does not participate in the exchange rate mechanism

b) Adjustment of the theoretical central rates of the Pound Sterling on the market rate of 13/05/1983

c) Since the Escudo entered the ERM at its previous notional central rate, on 6/4/92 there were no changes in the central rates of the other ERM currencies vis-à-vis the ecu, nor of the weights of the EMS currencies in the ecu basket

Source : Eurostat (European Monetary Cooperation Fund)

(1) For the purposes of the swap operations, the value of the reserve components contributed to the EMCF are established as follows :

- for the gold portion, the average of the prices, converted into ecu, recorded daily at the two London fixings during the previous six calendar months, but not exceeding the average price of the two fixings on the penultimate working day of the period ,

- for the US dollar portion, the market rate two working days prior to the value date.

The valuation standards used by the central banks to report their gold and US dollar reserves in their regular statements or statistics, or to international organisations, are not necessarily the same as those described above.

Yearly average exchange rates of the ecu

Monthly average exchange rates of the ecu

Monthly average exchange rates of the ecu

ECU SECURITIES STATISTICS: SHORT TERM DEBT

- **Italian Treasury bills: Details of issues**
 - Technical details of BTEs issues since 1987, as well as the prevailing ecu/lira exchange rates at the date of issue and at the date of maturity (a distinction is made between the bills still in circulation and those already redeemed)
 - Gross allotted rate of BTEs since 1987 (graph)
- **UK ecu Treasury Bills: Details of the results of tenders**
 - Technical details of UK ecu Tbills on a monthly basis for the current and previous two years¹
 - Monthly average yield on allotted ecu Tbills since October 1988 (statistics are split according to maturities of 1, 3 or 6 months)
 - Monthly average yield on allotted ecu Tbills since October 1988 (graph)
- **UK ecu Treasury Bills: Turnover Statistics**
 - Turnover figures on a monthly basis since October 1988 (a distinction is made between inter-market maker transactions and transactions involving a market maker and a non-market maker)
 - Turnover figures on a monthly basis since October 1988 (graph)
- **UK ecu Treasury Notes: Details of the results of tenders**
 - Technical details of UK 3-year ecu Treasury notes since January 1992
- **Volumes issued**
 - Amounts of UK ecu Tbills and Italian BTEs issued on a yearly basis since 1987 (graph)

¹ The same information from October 1988 is available upon request.

ECU SECURITIES STATISTICS: MEDIUM AND LONG TERM DEBT

- **French OATs: Details of issues**
 - Technical details of French ecu fungible treasury bonds since April 1989, in addition to the prevailing ecu/French franc exchange rate at the date of issuance (statistics are organised by maturity dates)
- **French BTANs: Details of issues**
 - Technical details of French ecu btans "bons du trésor à taux fixe et à taux d'intérêt annuel" since January 1993
- **Italian CTEs: Details of issues**
 - Technical details of Italian Treasury Certificates in ecus since February 1982, in addition to the prevailing ecu/lira exchange rate at the date of issuance (distinction is made between Certificates in circulation and those already redeemed)
- **Greek ecu-linked bonds: Details of issues**
 - Technical details of Greek ecu-linked bonds since November 1986, in addition to the prevailing ecu/drachma exchange rate at the date of issuance (distinction is made between bonds in circulation and those already redeemed)
- **Ecu bonds issues since 1981**
 - Volume issued of international/euro and domestic bonds on a yearly basis between 1981 and 1992 (graph)
 - Same data as above on a monthly basis for the current year (graph)
- **Volume of all ecu bond issues since 1981**
 - Volume of bonds issued since 1981 on a yearly basis (a distinction is made between major domestic issues and euro/international issues)
 - Volume of bonds issued for the current and the previous two years on a monthly basis (a distinction is made between major domestic issues and euro/international issues)¹
 - Volume of bonds issued for the current and the previous two years on a monthly basis (a distinction is made between EC and non EC borrowers)
 - Same data as above on a yearly basis for the previous two years (graph)
 - Same data as above on a monthly basis for the previous and current years (graph with distinction between EC and non EC borrowers)
 - Same data as above on a monthly basis for the previous and current years (graph with distinction between Sovereign and Private borrowers)

¹ The same information from April 1981 is available upon request.

- **Statistics on turnover by instrument¹**

- Secondary market turnover of fixed income ecu bonds (figures cover the current year on a monthly basis plus the previous two years on a quarterly basis, a distinction is made between eurobond straights, other straights and convertibles)
- Secondary market turnover of ecu money market instruments and short and medium term notes (figures cover the current year on a monthly basis plus the previous two years on a quarterly basis, a distinction is made between floating rate notes, certificates of deposits and short and medium term notes)
- Secondary market turnover of fixed income bonds in all currencies (figures cover the current year on a monthly basis plus the previous two years on a quarterly basis, a distinction is made between eurobond straight, other straights and convertibles)
- Secondary market turnover of money market instruments and short and medium term notes in all currencies (figures cover the current year on a monthly basis plus the previous two years on a quarterly basis, a distinction is made between floating rate notes, certificates of deposits and short and medium term)
- Secondary market turnover of all currencies, ecu and USD securities percentage of market taken by ecu securities (figures cover the current year on a monthly basis plus the previous two years on a quarterly basis, a clear breakdown is made between the different types of securities traded)

- **Most traded fixed-income bonds**

- Technical details of the most traded fixed-income ecu bonds in the Cedel and Euroclear systems. Total share of ecu bonds in the turnover of the 25 all-currencies most traded bonds (figures cover the previous two months)

- **Final maturity on ecu bonds**

- Technical details and volume of ecu bonds to be repaid in the next month

- **Top ten ecu bookrunners**

- For the past two years and the current year, the table displays the list of the top ten lead managers in ecu issues ranked in descending order. Ranking is determined by the total amount of bonds for which a financial institution acted as bookrunner. The table also indicates the number of issues led by each of the top ten bookrunners and the share of the total amount issued lead-managed by each institution.
NB: Italian CTEs and French OATs and BTANs are not taken into account.

- **Top ten ecu issuers**

- For the past two years and the current year, the table displays the list of the top ten ecu issuers. It includes all types of ecu bonds (OATs etc. are taken into account) but excludes Treasury bills, loans and other instruments. The top ten borrowers are ranked in descending order is determined by the amount borrowed. The table also displays the number of issues launched by each borrower (fungible issues are counted as many times as the market has been tapped), and the proportion of the amount borrowed by each borrower against the total amount borrowed.

- **JP MORGAN total return ecu index**

- The JP Morgan Ecu Bond Index measures the actual change in the market value of a portfolio of regularly traded, ecu-denominated, fixed-rate bonds on a daily basis. Indices are market-value-weighted: portfolios are assumed to be composed of bonds in proportion to their respective total market value. The formulas on which the indices are based compute what would happen to an investment, ignoring transaction costs and taxes, if the investor bought and sold the market portfolio over an arbitrary period of time. Mid prices are used for all calculations. The bonds range within a 3- to 10-year maturity band.

The graph displays the EBI **total return** index for both the triple-A bonds only basket and the non triple-A bonds only basket. Total return means variation in capital value plus coupons received. The index has been calculated daily back to October 1, 1989, with a value of 100 assigned to the total return series on December 29, 1989. Detailed data are available from Eurostat upon request. For more information on the EBI, please see JP Morgan's "Technical document" and "Guide for investors".

¹ Data have been provided by Cedel and Euroclear.

French fungible Treasury bonds (OAT)

FINANCIAL FUTURES

- **Matif ecu bond futures contracts: Open interest, volumes traded and deliverable bonds pools**
 - Contract specification table.
 - Open interest and volumes traded of Matif ecu bond futures contracts on a monthly basis for the current and the previous two years. The number of business days per month are given
 - Open interest and volumes traded of Matif ecu bond futures contracts on a daily basis for the current and the previous two months.¹
 - The tables display the deliverable bonds pools for the next two delivery dates. For each deliverable bond, the outstanding amount and the ISIN code are given. The conversion factor such as calculated by Matif and the accrued interest enable the reader to calculate the amount due by the buyer of futures contracts, and thus to determine the bond that is cheapest to deliver.

- **Implied rates of the futures contract (graph)**
 - The implied rate of the futures contract is defined as the rate of discount, which, at a given date, equates the expected price of the cheapest deliverable security and the theoretical value of this bond obtained from its discounted cash flow.

- **Matif option on the ecu bond futures contract: Open interest and volumes traded**
 - Contract specification table.
 - Open interest and volumes traded of Matif option on the ecu bond futures contract on a monthly basis for the current year and the last two years. The number of business days per month are given.
 - Open interest and volumes traded of Matif option on the ecu bond futures contract on a daily basis for the current month and the last two months.²

- **Liffe short term interest rate futures in ecu: Open interest and volumes traded³**
 - Contract specification table.
 - Open interest and volumes traded of Liffe short term interest rate futures in ecu on a monthly basis for the current and the previous two years. The number of business days per month are given.
 - Open interest and volumes traded of Liffe short term interest rate futures in ecu on a daily basis for the current and the previous two months⁴

- **Finex exchange rate futures: Open interest and volumes traded**
 - Contract specification table.
 - Open interest and volumes traded of Finex ecu futures contracts on a monthly basis for the current and the previous two years.

¹ Daily and monthly figures are available on request from October 1990.

² Daily and monthly figures are available on request from April 1991.

³ We no longer publish records of the Liffe ecu bonds futures contracts as it is no longer traded. However, such data are available for the period from March to October 1991.

⁴ Daily and monthly figures are available on request from October 1989.

MATIF long term ecu bonds futures

Contract specification

Definition	Ecu-denominated fictitious bond redeemable at maturity with 10% annual coupon.
Delivery Bond Pool	Made up of ecu-denominated bonds issued by sovereign states or supranational entities, with an outstanding amount not less than ecu 1 billion, with a 6-10 year remaining maturity, redeemable at maturity.
Unit of Trading	ecu 100 000 (nominal value).
Contract Symbol	RTH : ecu ATH (After Trading Hours) : ECH
Quotation	% of nominal value with two decimals
Tick Size	The minimum quotation spread is established at 0.02%. The tick size is: 0.02% x ecu 100 000 = ecu 20.
Delivery Dates	Two successive quarterly delivery months among March, June, September, December.
Last Trading Day	Four business days prior to the last business day in delivery month.
First Trading Day	The first business day following the 15th of the current delivery month.
Daily Price Limits	A minimum of 150 basis points of previous settlement price.
Initial Margin	Regular: ecu 2000 Straddle: ecu 1000 Can be made up of several securities (BTF, BTAN,...) or of currencies accepted by Matif SA (FRF, ECU, USD, DEM) owing to the multi-currency system.
Margin	Collected or paid in ecu currency.
Trading Hours	Open outcry trading

MATIF long term ecu bonds futures implicite rates

MATIF option on long term ecu interest rate futures

Contract specification

Underlying Instrument	Ecu bond futures contract (6-10 years).
Unit of Trading	One ecu bond futures contract.
Exercise Price	By multiple integer of 50 basis points.
Quotation	Premium in % of nominal value with two decimals.
Tick	1 bp (basis point), i.e. ecu 10.
Delivery Dates	Two successive quarterly delivery months among March (H), June (M), September (U), December (Z).
Last Trading Day	Last Thursday of the month preceeding the delivery month of the ecu bond futures contract.
First Trading Day	The first business day following the 15th of the current delivery month.
Settlement	Exercise of the Option: the purchase or sale of an ecu bond futures contract at the strike price. On last trading day, automatic exercise of in-the-money options.
Exercise	Possible at any time: American Option.
Daily Price Limits	None.
Initial Margin	Cross-margining of futures and options positions.
Premiums	Collected or paid in ecu currency.

ECU CLEARING

- Clearing of private banking transactions in ecu through the Swift network
 - Ecu clearing figures for the current and the previous two years on a monthly basis. The number of clearing banks, the number of payments netted and the number of business days per month, in addition to the transactions/turnover figures, are specified¹
- Rate applied to the clearing of private ecu banking transactions
 - Rate applied to the ecu clearing (Eibor, Eimean or Eibid) on a daily basis for the current and the previous two years²
- Settlement rates within the ecu banking clearing system
 - Monthly and yearly average settlement rates since 1988, in addition to the number of business days taken into account.

¹ The same data from October 1986 are available upon request.

² The same data from 1988 are available upon request.

OPERATION RATES OF THE EMCF, ECU INTEREST RATES AND YIELDS, ECU LIBOR RATES

- Operation rates of the EMCF, interest rates and yields of ecu investments
 - Operation rates of the EMCF on a monthly basis from January 1989 (the interest rate for transactions in EMCF (European Monetary Cooperation Fund) ecus, is the weighted average of the most representative rates on the domestic money market of the countries whose currencies make up the ecu basket. It is based on the weighting of the currencies in the ecu basket as derived from the ecu central rates in force. The rate thus calculated for a given month applies to EMCF transactions for the following month. In this table, this rate relates to the month upon which the calculations are based and not to the (following) month during which it is used by the EMCF)
 - Interest rates for 1, 3 and 6 month and 1 year deposits, calculated on the basis of the Friday London market rates (source: Financial Times, London Money Rates, ecu Linked Deposit Bid).
 - Redemption yields of ecu bonds (the bonds are classified according to three types of maturities: under 5 years, from 5 to 7 years and more than 7 years, redemption yields of ecu bonds are calculated each Wednesday from a sample of fixed interest bonds, denominated in ecus and listed on the Luxembourg Stock Exchange. These yields are weighted by the amounts in circulation. (source: Luxembourg Stock Exchange).

(The monthly and yearly averages are the arithmetic means of these weekly interest rates and bond yields)¹

- Ecu LIBOR rates (graph)

LIBOR figures on a daily basis for maturities of 1, 3 and 6 months² (Interbank rates are quoted bid (to borrow) and offer (to lend). The London interbank offered rate (LIBOR) is a benchmark, as interest rates on many credit agreements worldwide are set in relation to it)

- Ecu interest rate swaps (graphs)

The graph displays the average yield of ecu interest rate swaps for maturities of 3, 5, 7 and 10 years. Data are on a daily basis and only for weekdays for the last two years and the current year. The swap operations considered are fixed rate versus 6-month ecu Libor (year = 360 days). These data are communicated by inter-dealer broker Finacor.

The graph displays the same information as above but only the last two months and the current month are covered.

¹ The same data are available upon request from April 1979 with regard to EMCF rates and interest rates on deposits and from January 1982 with regard to yields on bonds.

² The same data are available upon request from April 1989.

Operation rates of the EMCF, interest rates and yields of ecu investments

CONSUMER PRICE INDICES IN ECU IN EEC COUNTRIES

- **Yearly figures of price indices in ecu (1985 = 100)**
 - Yearly consumer price indices in ecu for EC individual countries, EUR12, ERM and ecu groups (most data are available from 1955, however, some are only available from 1970)
- **Yearly growth rates of the consumer price indices in ecu**
 - Yearly growth rates of the consumer indices in ecu for EC individual countries, EUR12, ERM and ecu groups (most data are available from 1956, however, some are only available from 1971)
- **Monthly figures of price indices in ecu (1985 = 100)**
 - Monthly consumer price indices in ecu for EC individual countries, EUR12, ERM and ecu groups. (figures cover the current and the previous two years)¹
 - Same data as above by country compared to EUR12 from 1985 (graph)
- **Monthly growth rates of the consumer price indices in ecu**
 - Monthly growth rates (over 12 months) of the consumer indices in ecu for EC individual countries, EUR12, ERM and ecu groups (figures cover the current and the previous two years)²
 - Same data as above by country compared to EUR12 from 1985 (graph)

¹ Monthly figures are available upon request from 1955 for most countries. However, some are only available from 1970.

² Monthly growth figures are available upon request from 1956 for most countries. However, some are only available from 1971.

Monthly growth rates of the consumer price indices in ecu (over 12 months)

Monthly growth rates of the consumer price indices in ecu (over 12 months)

ECU BANKING STATISTICS

- The 3 graphs on the same page display the international positions (amount outstanding) in ecus of the BIS reporting banks. The geographical coverage of these statistics is the widest available. The data are updated quarterly by the BIS.

All figures are in billions of ecus.

- First graph: Assets of banks, of which vis-à-vis the non bank sector
- Second graph: Liabilities of banks, of which vis-à-vis the non bank sector
- Third graph: Net assets of banks, of which vis-à-vis the non bank sector

The table displays in figures the same information as the graphs.

International positions in ecus of reporting banks vis-à-vis individual countries
(in billions of ecus)

	Vis-à-vis all sectors	Of which: vis-à-vis the non-bank sector
A. Claims of banks in ecus
