Eurostat hat die Aufgabe, den Informationsbedarf der Kommission und aller am Aufbau des Binnenmarktes Beteiligten mit Hilfe des europäischen statistischen Systems zu decken.

Um der Öffentlichkeit die große Menge an verfügbaren Daten zugänglich zu machen und Benutzern die Orientierung zu erleichtern, werden zwei Arten von Publikationen angeboten: Statistische Dokumente und Veröffentlichungen.

Statistische Dokumente sind für den Fachmann konzipiert und enthalten das ausführliche Datenmaterial: Bezugsdaten, bei denen die Konzepte allgemein bekannt, standardisiert und wissenschaftlich fundiert sind. Diese Daten werden in einer sehr tiefen Gliederung dargeboten. Die Statistischen Dokumente wenden sich an Fachleute, die in der Lage sind, selbständig die benötigten Daten aus der Fülle des dargebotenen Materials auszuwählen. Diese Daten sind in gedruckter Form und/oder auf Diskette, Magnetband, CD-ROM verfügbar. Statistische Dokumente unterscheiden sich auch optisch von anderen Veröffentlichungen durch den mit einer stilisierten Graphik versehenen weißen Einband.

Veröffentlichungen wenden sich an eine ganz bestimmte Zielgruppe, wie zum Beispiel an den Bildungsbereich oder an Entscheidungsträger in Politik und Verwaltung. Sie enthalten ausgewählte und auf die Bedürfnisse einer Zielgruppe abgestellte und kommentierte Informationen. Eurostat übernimmt hier also eine Art Beraterrolle.

Für einen breiteren Benutzerkreis gibt Eurostat Jahrbücher und periodische Veröffentlichungen heraus. Diese enthalten statistische Ergebnisse für eine erste Analyse sowie Hinweise auf weiteres Datenmaterial für vertiefende Untersuchungen. Diese Veröffentlichungen werden in gedruckter Form und in Datenbanken angeboten, die in Menütechnik zugänglich sind.

Um Benutzern die Datensuche zu erleichtern, hat Eurostat Themenkreise, d. h. eine Untergliederung nach Sachgebieten, eingeführt. Daneben sind sowohl die Statistischen Dokumente als auch die Veröffentlichungen in bestimmte Reihen, wie zum Beispiel „Jahrbücher“, „Konjunktur“, „Methoden“, untergliedert, um den Zugriff auf die statistischen Informationen zu erleichtern.

Y. Franchet
Generaldirektor

It is Eurostat's responsibility to use the European statistical system to meet the requirements of the Commission and all parties involved in the development of the single market.

To ensure that the vast quantity of accessible data is made widely available, and to help each user make proper use of this information, Eurostat has set up two main categories of document: statistical documents and publications.

The statistical document is aimed at specialists and provides the most complete sets of data: reference data where the methodology is well-established, standardized, uniform and scientific. These data are presented in great detail. The statistical document is intended for experts who are capable of using their own means to seek out what they require. The information is provided on paper and/or on diskette, magnetic tape, CD-ROM. The white cover sheet bears a stylized motif which distinguishes the statistical document from other publications.

The publications proper tend to be compiled for a well-defined and targeted public, such as educational circles or political and administrative decision-makers. The information in these documents is selected, sorted and annotated to suit the target public. In this instance, therefore, Eurostat works in an advisory capacity.

Where the readership is wider and less well-defined, Eurostat provides the information required for an initial analysis, such as yearbooks and periodicals which contain data permitting more in-depth studies. These publications are available on paper or in videotext databases.

To help the user focus his research, Eurostat has created 'themes', i.e. subject classifications. The statistical documents and publications are listed by series: e.g. yearbooks, short-term trends or methodology in order to facilitate access to the statistical data.

Y. Franchet
Director-General

Pour établir, évaluer ou apprécier les différentes politiques communautaires, la Commission européenne a besoin d'informations.

Eurostat a pour mission, à travers le système statistique européen, de répondre aux besoins de la Commission et de l'ensemble des personnes impliquées dans le développement du marché unique.

Pour mettre à la disposition de tous l'importante quantité de données accessibles et faire en sorte que chacun puisse s'orienter correctement dans cet ensemble, deux grandes catégories de documents ont été créées: les documents statistiques et les publications.

Le document statistique s'adresse aux spécialistes. Il fournit les données les plus complètes: données de référence où la méthodologie est bien connue, standardisée, normalisée et scientifique. Ces données sont présentées à un niveau très détaillé. Le document statistique est destiné aux experts capables de rechercher, par leurs propres moyens, les données requises. Les informations sont alors disponibles sur papier et/ou sur disquette, bande magnétique, CD-ROM. La couverture blanche ornée d'un graphisme stylisé démarque le document statistique des autres publications.

Les publications proprement dites peuvent, elles, être réalisées pour un public bien déterminé, ciblé, par exemple l'enseignement ou les décideurs politiques ou administratifs. Des informations sélectionnées, triées et commentées en fonction de ce public lui sont apportées. Eurostat joue, dès lors, le rôle de conseiller.

Dans le cas d'un public plus large, moins défini, Eurostat procure des éléments nécessaires à une première analyse, les annuaires et les périodiques, dans lesquels figurent les renseignements adéquats pour approfondir l'étude. Ces publications sont présentées sur papier ou dans des banques de données de type vidéotex.

Pour aider l'utilisateur à s'orienter dans ses recherches, Eurostat a créé les thèmes, c'est-à-dire une classification par sujet. Les documents statistiques et les publications sont répertoriés par série — par exemple, annuaire, conjoncture, méthodologie — afin de faciliter l'accès aux informations statistiques.

KOMMENTAR

Industriekonjunktur verhalten

Die Industrieproduktion der Europäischen Union (EUR 15) stagnierte im Mai 1995, während gleichzeitig die Erzeugerpreise anstiegen. Betrachtet man die glatte Komponente des Produktionsindex (Trend), so beträgt die Änderungsrate der letzten drei Monate (März bis Mai) gegenüber den vorherigen drei Monaten (Dezember bis Februar) nur noch 0,4%. Diese Entwicklung ist für alle Hauptgütergruppen der Industrieproduktion gleichermaßen zu beobachten. Die Inflationsrate der Erzeugerpreise (April 95/April 94) beträgt 4,0%.

Sowohl in den USA als auch in Japan ist eine Wachstumsabschwächung der Industriekonjunktur auf ein Nullwachstum (0,0%) zu verzeichnen gewesen.

Die Veränderungsrate (März bis Mai im Vergleich Dezember bis Februar) für die gesamte Industrieproduktion beträgt in den Mitgliedstaaten der Union (EUR 15): Schweden: 3,2% (geschätzt), Österreich: 2,2%, Finnland: 2,1%, Italien: 1,2%, Dänemark: 1,1%, Spanien: 1,1%, Frankreich: 0,6%, die Niederlande: 0,6%, Griechenland: 0,2%, das Vereinigte Königreich: 0,1%, Deutschland: 0,0%, Portugal: 0,0% (geschätzt).

Die Wachstumsabschwächung der Industrieproduktion in der Europäischen Union hat also vor allem in Deutschland und dem Vereinigten Königreich ihre Wurzeln.

Luxemburg, 18.08.1995

* Unter der glatten Komponente (Trend) versteht man die sowohl vom Saisoneinfluß als auch von irregulären Schwankungen bereinigten Reihen.

HINWEISE

1. Systematik der Industriezweige

Die hier veröffentlichten Indizes beziehen sich auf die Industriezweige gemäß der neuen revidierten harmonisierten Systematik der Wirtschaftszweige in den Europäischen Gemeinschaften NACE Rev.1 Abteilung C bis F. Es ist darauf hinzuweisen, daß einige Mitgliedstaaten bislang ihre Konjunkturindikatoren nicht in NACE Rev.1 liefern, so daß Schätzungen notwendig sind, die die Verlässlichkeit der Daten beeinträchtigen.

2. Produktionsindizes

Der Produktionsindex mißt die mengenmäßige Entwicklung der Bruttowertschöpfung (d.h. die Entwicklung zu konstanten Preisen) in der Industrie, wobei die Zusammenfassung der Produktionsbereiche bei der Indexbildung (ebenso wie die Zusammenfassung für einen bestimmten Industriezweig auf Gemeinschaftsebene) durch Gewichtung mit Hilfe der Bruttowertschöpfung zu Faktorkosten erfolgt.

Bedeutung von %A und %B:

Arbeitstäglich bereinigte Produktionsindizes:

- ♦ %A: die letzten 12 Monate gegenüber den vorhergehenden 12 Monaten;
- ♦ %B: letzte 3 Monate gegenüber dem entsprechenden Vorjahreszeitraum.

Saisonbereinigte Produktionsindizes:

- ♦ %A: die letzten 3 Monate gegenüber den vorhergehenden 3 Monaten;
- ♦ %B: der letzte Monat gegenüber dem Vormonat.

3. Umsatz- und Auftragseingangsindizes

Diese Indizes erfassen die Entwicklung des Umsatzes (einschließlich Exportabsatz) bzw. des Auftragseingangs zu laufenden Werten. Für Griechenland, Spanien und Portugal werden zur Zeit keine Umsatzindizes geliefert. Der Auftragseingangsindex wird darüber hinaus auch von Frankreich nicht berechnet.

4. Erzeugerpreisindex der industriellen Produktion

Dieser Index erfaßt (in der Landeswährung der einzelnen Staaten) die Entwicklung der Verkaufspreise ab Werk für alle Erzeugnisse, die auf den Inlandsmärkten der Mitgliedsstaaten verkauft werden. Da es sich um Erzeugerpreise handelt, sind Importe in den Preisindizes nicht enthalten. Die Indizes für die Gemeinschaft (EUR 11, Portugal verfügt zur Zeit über keine Erzeugerpreisindizes) beziehen sich auf die gewichtete Gesamtheit dieser Preisentwicklung.

Die Erzeugerpreisindizes für die einzelnen Mitgliedsstaaten (und die Gemeinschaft) werden auch in ECU angegeben. Hierzu werden die nationalen Indizes mit dem jeweiligen für diesen Monat geltenden Wechselkurs gegenüber dem ECU umgerechnet.

5. Indizes der abhängig Beschäftigten

Die Beschäftigtenzahlen umfassen sämtliche beschäftigte Personen (auf der Lohnliste stehende Arbeiter und Angestellte).

6. Saisonbereinigung und arbeitstägliche Bereinigung

Die Produktionsindizes werden in zwei Etappen berichtigt: eine erste Berichtigung wird unter Berücksichtigung der ungleichen Zahl der Arbeitstage pro Monat durchgeführt (ausgenommen Dänemark, Spanien und Japan). Sodann erfolgt für EUR 12 und neun der Mitgliedstaaten eine Saisonbereinigung mit Hilfe von SEATS, einem Verfahren entwickelt von Professor Maravall. Für Deutschland, Irland und das Vereinigte Königreich werden die Indizes durch das nationale statistische Amt saisonbereinigt.

Eine Saisonbereinigung (aber keine arbeitstägliche Bereinigung) erfolgt in vergleichbarer Weise für die Indizes des Umsatzes, des Auftragseingangs und der abhängig Beschäftigten. Die Erzeugerpreise werden nicht saisonbereinigt.

7. Schaubilder

Die Schaubilder zeigen jeweils den **Trend (glatte Komponente)**, d.h. saisonbereinigte Werte, die zusätzlich um die irreguläre Komponente bereinigt wurden.

8. weitere methodische Erläuterungen

Genauere Angaben bezüglich der Definitionen einzelner Indikatoren und der angewandten Erhebungs- und Berechnungsmethoden können bei Eurostat angefragt werden. Es existiert ein detailliertes Methodenhandbuch sowie eine Datenbank der verschiedenen nationalen Methoden.

9. Zeichen und Anmerkungen:

%	Prozent	1985=100	Basisjahr

COMMENTS

Weak industrial production

Industrial production in the European Union (EUR 15) was stagnant in May 1995, while producer price inflation rose. The trend in the industrial production index between the periods December-February and March-May was an increase of just +0.4%. This increase was recorded for all the main industrial product groups. Producer prices were up 4.0% between April 1994 and April 1995.

Both the USA and Japan have seen the growth rate in industry fall to zero (0.0%).

In the Member States of the European Union (EUR 15), changes in total industrial production between the periods December-February and March-May were as follows: Sweden: 3.2% (estimate); Austria: 2.2%; Finland: 2.1%; Italy: 1.2%; Denmark: 1.1%; Spain: 1.1%; France: 0.6%; Netherlands: 0.6%; Greece: 0.2%; United Kingdom: 0.1%, Germany: 0.0%, Portugal: 0.0% (estimate).

The weakness in the growth rate of industrial production in the European Union is therefore due primarily to Germany and the UK.

Luxembourg, 18.08.1995

* The term trend denotes series adjusted for both seasonal influences and irregular fluctuations.

NOTES

1. Classification of industrial activities

The indices in this bulletin cover the economic activities as they are defined in Divisions C to F of the new revised General Classification of Economic Activities within the European Communities NACE - Rev.1. It should be noted that some of the Member States do not yet supply their short term indicators in NACE Rev.1. This necessitates estimations which reduces the reliability of these series.

2. Indices of production

The index of production measures changes in the volume (at constant prices) of the gross value added created by industry, the branch indices being aggregated (like the aggregation at Community level for a given industrial branch) by means of a system of weighing according to gross value added at factor cost.

Meaning of %A and %B:

Indices of production adjusted by the number of working days:

- ♦ %A: the last twelve months as compared with the preceding twelve months;
- ♦ %B: the last three months as compared with the corresponding months of the previous year.

Seasonally adjusted indices of production:

- ♦ %A: the last three months as compared with the preceding three months;
- ♦ %B: the last month as compared with the month before that.

3. Indices of turnover and orders received

These reflect changes in turnover (including sales for export) and orders received at current prices. None of these indices are supplied at present for Greece, Spain or Portugal, and France does not calculate any index of orders received.

4. Index of producer prices of industrial production

This index shows (in the national currency of the Member State in question) changes in the ex-works selling prices of all products sold on the domestic markets of the various countries. Since we deal with **producer** prices, imports are not included in these price indices. The Community indices (EUR 11, since there are no producer price indices for Portugal) refer to overall weighted price changes.

The producer price indices for the individual Member States (and the Community) are shown in ecus as well. The national indices are converted by the exchange rate for the national currency against the ecu for the month in question.

5. Indices of the number of employees

Figures showing the number of employees include all persons employed by the firm (manual workers and salaried employees on the firm's payroll).

6. Seasonal adjustment and adjustment for number of working days

The indices of production are adjusted in two stages: firstly to take account of the varying number of working days in the month (except for Denmark, Spain and Japan) and secondly by seasonal adjustment according to SEATS, a method developed by Professor Maravall, for EUR 12 and nine of the Member States. For Germany, Ireland and the United Kingdom, the indices are adjusted by the national statistical office.

The turnover, new orders and number of employees indices are seasonal adjusted (but no adjustment for number of working days). The producer prices are not seasonally adjusted.

7. Graphs

The graphs show the **trend cycle**, i.e. seasonally adjusted series where additionally the irregular component has been excluded.

8. Further explanations on methodology

Further details on the definitions of the various indicators and the methods used for survey and calculation can be demanded from EUROSTAT. There is a detailed methodological manual as well as a database on the various national methodologies.

9. Symbols and abbreviations

COMMENTAIRE

Une faible conjoncture industrielle

La production industrielle de l'Union européenne (EUR 15) a stagné en mai 1995 alors que dans le même temps, les prix à la production augmentent. Au vu de la tendance-cycle de l'indice de production, le taux de variation des trois derniers mois (mars à mai) par rapport aux trois mois précédents (décembre à février) n'est plus que de +0,4%. Cette tendance concerne tous les grands groupes de produits industriels de la même façon. Le taux d'inflation des prix à la production (avril 95/avril 94) s'élève à 4,0%.

Aux États-Unis et au Japon, la croissance de la conjoncture industrielle s'est ralentie et a atteint un niveau zéro (croissance nulle).

Dans les États membres de l'Union (EUR 15) le taux de variation (mars-mai par rapport à décembre-février) est le même pour l'ensemble de la production industrielle: Suède 3,2% (estimé), Autriche: 2,2%, Finlande: 2,1%, Italie: 1,2%, Danemark: 1,1%, Espagne: 1,1%, France: 0,6%, Pays-Bas: 0,6%, Grèce: 0,2%, Royaume-Uni: 0,1%, Allemagne: 0,0%, Portugal: 0,0% (estimé)

Le ralentissement de la croissance de la production industrielle dans l'Union européenne est donc essentiellement dû à la situation en Allemagne et au Royaume-Uni.

Luxembourg, le 18.08.1995

* On entend par tendance-cycle, les séries corrigées des influences saisonnières et des variations irrégulières.

NOTES

1. Nomenclature des activités Industrielles

Les indices repris dans la présente publication portent sur les activités industrielles telles qu'elles sont définies dans la Nomenclature générale révisée des activités économiques dans les Communautés européennes NACE Rév.1, division C à F. Certains Etats membres ne fournissant pas de données dans la classification NACE Rév.1, il est nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

2. Indices de production

L'indice de production mesure l'évolution en volume (à prix constants) de la valeur ajoutée brute générée dans l'industrie, l'agrégation des indices de branches (comme l'agrégation au niveau communautaire pour une branche donnée) étant effectuée par pondération à l'aide de la valeur ajoutée brute au coût des facteurs.

Signification des %A et des %B:

Indices de production après correction par jours ouvrables:

- ♦ %A: les 12 derniers mois par rapport aux 12 mois précédents;
- ♦ %B: les 3 derniers mois par rapport aux mois correspondants de l'année précédente.

Indices de production désaisonnalisés:

- ♦ %A: les 3 derniers mois par rapport aux 3 mois précédents;
- ♦ %B: le dernier mois par rapport au mois précédent.

3. Indices du chiffre d'affaires et des entrees de commandes

Ces indices rendent compte de l'évolution du chiffre d'affaire (y compris les ventes à l'exportation) et des entrées de commandes en valeur courante. Aucun de ces indices n'est disponible actuellement pour la Grèce, l'Espagne et le Portugal, et la France ne calcule pas l'indice des entrées de commandes.

4. Indice des prix à la production industrielle

Cet indice rend compte (dans la monnaie nationale de l'Etat membre concerné) de l'évolution des prix de vente départ-usine de tous les produits qui sont vendus sur les marchés intérieurs des Etats membres. Étant donné qu'il s'agit de prix à la production, les importations ne sont pas incluses dans ces indices de prix. L'indice communautaire (EUR 11, le Portugal ne calculant pas actuellement d'indices des prix à la production) est une moyenne pondérée des différents indices nationaux.

Les indices des prix à la production des différents Etats membres (et de la Communauté) sont également indiqués en écus. A cet effet, les indices nationaux sont convertis chaque mois par le taux de change de la monnaie nationale vis-à-vis de l'écu.

5. Indices du nombre de salariés

Le nombre de salariés inclut l'ensemble des personnes occupées (ouvriers et employés) figurant sur la feuille de paie.

6. Désaisonnalisation et correction des jours ouvrables

Les indices sont corrigés en deux étapes. Une première correction est effectuée pour tenir compte des différences en matière de nombre de jours ouvrables par mois (sauf pour le Danemark, l'Espagne et le Japon). La deuxième étape consiste à corriger des variations saisonnières, selon SEATS, une méthode développée par le Professeur Maraval, les séries pour EUR12 et pour neuf des Etats-membres. Pour l'Allemagne, l'Irlande et le Royaume-Uni, les indices sont désaisonnalisés par les offices statistiques nationaux.

L'indice du chiffre d'affaires, des entrées de commandes et du nombre de salariés est désaisonné (aucune correction n'est effectuée pour les jours ouvrables). L'indice des prix à la production n'est pas désaisonné.

7. Graphiques

Les graphiques présentent des **tendance-cycles (fluctuation conjoncturelle)** c'est-à-dire des séries désaisonnalisées où en outre la composante irrégulière était exclue.

8. Autres explications methodologiques

Des informations plus détaillées au sujet des définitions des différents indicateurs et des méthodes appliquées peuvent être demandées à EUROSTAT. Il existe un manuel méthodologique détaillé ainsi qu'une base de données sur les différentes méthodologies nationales.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Saisongereinigte Reihen enthalten irreguläre Effekte und Ausreißer, die die langfristige Konjunktorentwicklung überdecken. Der langfristige Trend dagegen zeigt allein die Richtung der konjunkturellen Entwicklung. Am aktuellen Rand können allerdings Fehlinterpretationen nicht ausgeschlossen werden, da hier die Werte unter Hinzunahme von Prognosen berechnet werden.

Seasonally adjusted series still contain irregularities and outliers which mask longer-term trends. Only the long-term trend, however, is an adequate indicator of economic evolution. However, care must be taken with the most recent figures because they have been calculated using forecasts.

Des séries corrigées des variations saisonnières contiennent toujours des effets irréguliers et des valeurs aberrantes qui masquent l'évolution conjoncturelle à long terme. En revanche, la tendance à long terme ne montre que l'orientation de l'évolution conjoncturelle. Néanmoins, il n'est pas exclu que les toutes dernières valeurs donnent lieu à des erreurs d'interprétation car ici les chiffres sont calculés à l'aide de prévisions.

¹ Schätzung – Estimation Eurostat

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daB Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlasslichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series présentes dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder  un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlablichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentees dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder a un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlilichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentees dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder  un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftsweizklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentes dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder  un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlablichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentees dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder  un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlablichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentees dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder a un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da  Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlablichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les s ries pr sent es dans cette publication suivent la nouvelle classification des activit s NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donn es dans la classification NACE Rev.1. Il est donc n cessaire de proc der   un grand nombre d'estimations ce qui r duit la fiabilit  de ces indicateurs conjoncturels.

Regelmäßig herausgegebene Eurostat-Veröffentlichungen zum Thema Industrie

- Industriekonjunktur – Monatliche Statistiken und Beilagen

Diese Veröffentlichung enthält die Indizes von industrieller Produktion, Umsatz, Auftragseingang, abhängig Beschäftigten, Löhnen und Gehältern, nach Industriezweigen, ferner Indizes des Werts von Ein- und Ausfuhren. Ein separates kurzes Kapitel ist den Konjunkturindikatoren für das Baugewerbe vorbehalten.

Beilagen mit Angaben zur Methodik und/oder mit retrospektiven Reihen vervollständigen die laufende Veröffentlichung.
Abonnement (VU): ECU 96

- Panorama der EG-Industrie – zweimonatlich

Konjunktur-Beilage mit aktuellen Informationen über die Industrie in der EG.
Abonnement (VPA): ECU 63

- Struktur und Tätigkeit der Industrie – Jahreserhebung – Wichtigste Ergebnisse

Diese Veröffentlichung enthält die wichtigsten Ergebnisse der von den Mitgliedstaaten in Übereinstimmung mit einer Richtlinie des Rates vom 6. Juni 1972 durchgeführten koordinierten Jahreserhebung über die Tätigkeit der Industrie. Sie weist jährlich die Angaben über die wichtigsten wirtschaftlichen Tatbestände dieser Erhebung (Beschäftigung, Produktionswert, Wertschöpfung usw.) aus.

Preis: ECU 28

- Struktur und Tätigkeit der Industrie – Ergebnisse nach Unternehmensgröße

Dieser Band, der alle zwei Jahre herausgegeben wird, enthält die Ergebnisse der koordinierten Jahreserhebung über die Tätigkeit der Industrie für die fünf wichtigsten Tatbestände, gegliedert nach drei Größenklassen von Unternehmen.

Preis: ECU 24

BESTELLSCHEIN

Zu senden an: **Amt für amtliche Veröffentlichungen
der Europäischen Gemeinschaften**
L-2985 Luxemburg

Bitte senden Sie mir Exemplar(e) der folgenden Veröffentlichung(en)

- Industriekonjunktur – Monatliche Statistiken und Beilagen (Abonnement)
- Konjunktur-Beilage – Panorama der EG-Industrie – zweimonatlich (Abonnement)
- Struktur und Tätigkeit der Industrie – Wichtigste Ergebnisse
- Struktur und Tätigkeit der Industrie – Ergebnisse nach Unternehmensgröße

Die aufgeführten Veröffentlichungen sind auch bei den auf der dritten Umschlagseite aufgeführten Vertriebsbüros erhältlich.

The periodicals of the Statistical Office on Industry

Industrial trends – Monthly statistics and supplements

This publication contains the indices of industrial production, turnover, orders received, number of employees, gross wages and salaries by branch of industry as well as indices of the value of imports and exports. A special chapter is devoted to indicators for the building and civil engineering sector.

Supplements on methodology and/or containing retrospective series complete the ordinary publication.
Subscription (VUJ): ECU 96

Panorama of the EC Industry – bimonthly

Short-term supplement with the latest information on EC industry.
Subscription (VPA): ECU 63

Structure and activity of industry – Annual inquiry – Main results

This publication contains the main results of the coordinated annual inquiry into industrial activity, carried out by the Member States pursuant to a Council Directive of 6 June 1972. It gives annually the results for the most important economic variables of this inquiry: employment, production value, value-added, etc.
Price: ECU 28

Structure and activity of industry – Data by size of enterprise

This volume, which is published every two years, gives the results of the coordinated annual inquiry into industry for the five most important variables by three classes of size of enterprise.
Price: ECU 24

ORDER FORM

To send to: **Office for Official Publications**
of the European Communities
L-2985 Luxembourg

Please send me copy(ies)

- Subscription to Industrial trends – Monthly statistics & supplements
- Subscription to Panorama of the EC-Industry – bimonthly supplement
- Structure and activity of industry – Main results
- Structure and activity of industry – Data by size of enterprise

Payment is due on receipt of invoice

These publications are also available from the sales offices (see inside back cover).

Les périodiques de l'Office statistique sur l'industrie

Conjoncture Industrielle — Statistiques mensuelles et suppléments

Cette publication contient les indices de production industrielle, chiffres d'affaires, entrées de commandes des personnes employées, des salaires et des traitements par branche industrielle ainsi que des indices de valeur des importations et des exportations. Un bref chapitre est réservé aux indicateurs conjoncturels du secteur du bâtiment et du génie civil.

Des suppléments de caractère méthodologique et/ou contenant des séries rétrospectives complètent la publication courante.
Abonnement (VUI): ECU 96

Panorama de l'industrie communautaire (bimestriel)

Supplément conjoncturel avec les dernières informations sur l'industrie communautaire.
Abonnement (VPA): ECU 63

Structure et activité de l'industrie — Enquête annuelle — Principaux résultats

Cette publication comporte les principaux résultats de l'enquête annuelle coordonnée sur l'activité industrielle, exécutée par les États membres en conformité avec une directive du Conseil du 6 juin 1972. Elle donne annuellement les résultats pour les variables économiques les plus importantes de cette enquête: emploi, valeur de la production, valeur ajoutée, etc.

Prix: ECU 28

Structure et activité de l'industrie — Données selon la taille des entreprises

Dans ce volume qui paraît à un rythme bisannuel, les résultats de l'enquête annuelle coordonnée sur l'activité de l'industrie sont ventilés pour cinq variables importantes, selon trois classes de taille des entreprises.

Prix: ECU 24

BON DE COMMANDE
