

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(93) 33 final

Brussels, 17 February 1993

Proposal for a

COUNCIL DECISION

ESTABLISHING A COMMUNITY PROCEDURE FOR ADMINISTERING
QUANTITATIVE IMPORT RESTRICTIONS AND MONITORING OF
TEXTILE AND CLOTHING PRODUCTS ORIGINATING IN CERTAIN THIRD COUNTRIES

(presented by the Commission)

EXPLANATORY MEMORANDUM

Proposal for a Council Regulation establishing a Community procedure for administering quantitative import restrictions and monitoring of textile and clothing products originating in certain third countries.

1. In view of the completion of the internal market the quantitative restrictions on textile products negotiated with third countries (AMF-type bilateral agreements and preferential arrangements) do not provide any more for the breakdown of the Community quotas into national sub-quotas after 1. January 1993. This makes it necessary to lay down rules for the administration of the Community quotas and monitoring procedures at Community level.
2. For this purpose, a central computerized system will be established and be operated by the Commission. Its mission will be to make sure that the total Community quotas will not be exceeded. The competent authorities of the Member States will continue to issue as at present the import licences. However, before issuing the import licence these authorities shall seek confirmation by the Commission that there are still quantities available to be licenced. The Commission will provide its confirmation to the requests of the Member States on a first come - first served basis.
3. The attached proposal also lays down special transitional provisions. Indeed, as the central computer system to be set up by the Commission will not be fully operational until about end of March 1993, it is necessary to take certain precautions; so that during this transitional period the licenses issued by all the Member States do not exceed the total quantities available in Community quotas.
4. The attached proposal finally provides that the Commission will be assisted in its tasks by a committee. This committee will be the same as that set up under Article 15 of the Council Regulation (EEC) no. 4136/86.

Proposal for a Council Regulation
establishing a Community procedure for administering
quantitative import restrictions and monitoring of textile and
clothing products originating in certain third countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and
in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the Community has negotiated agreements with a number of supplier
countries on trade in textile products on the basis of the Protocol for the
extension of the Multi-Fibre Arrangement; whereas a number of other
protocols, arrangement or specific import regimes are also applied with some
third countries in the context of association agreements and other type of
preferential arrangements;

whereas these agreements, protocols and arrangements provide, inter alia,
that the supplier countries' exports into the Community of certain textile
products falling within section XI of the Combined Nomenclature shall be
subject to quantitative restrictions fixed at Community level or to a
monitoring procedure;

Whereas a basic characteristic of these agreements, Protocols and
arrangements is the establishment of a double-checking system in order to
ensure compliance with the quantitative restrictions established thereunder;

Whereas Article 8A of the Treaty provides for the creation of an internal market by 1 January 1993, comprising an area without internal frontiers in which the free circulation of goods is ensured; whereas for this reason and also to take account of the principles laid down by the Court of Justice of the European Communities the above agreements, protocols and arrangements do not provide any more for the breakdown of the Community quantitative restrictions into national sub-quotas;

Whereas in order to apply Community quantitative restrictions and monitoring procedures in conformity with the agreements, protocols and arrangements negotiated with the supplier countries it is necessary to establish a special management procedure;

Whereas it is desirable that such common management system be decentralized to the extent possible by allowing import authorizations to be issued, as in the past, by the Member States' authorities in accordance with the double-checking system established in those agreements, protocols and arrangements, as well as the implementing Council Regulation to be adopted following the expiration of Council Regulation (CEE) No 4136/86 (1);

(1) O.J. L 387, 31.12.1986, p. 42

Whereas, however, it is necessary, in the absence of the breakdown of the Community quantitative restrictions into national sub-quotas, to make sure that the competent authorities of the Member States do not exceed, when issuing the import licences, the quantitative limits established in the agreements, protocols or arrangements;

Whereas for this purpose the competent authorities of the Member States should not issue import licences before obtaining the prior confirmation of the Commission of the European Communities that there are still amounts available of the total Community quantitative restriction for which an application is submitted by an importer to the said competent authorities;

Whereas the Commission of the European Communities should provide its confirmation to the requests submitted by the Member States on a first come - first served basis, and shall allocate to the extent possible, the full amount requested;

Whereas a request submitted by the competent authorities to the Commission on quantity availability shall be considered to be valid if it permits to establish the supplier third country, the category of textile products concerned, the amount to be imported, the number of the export licence and the Member State of intended customs clearance;

Whereas for the effective management of the Community quantitative restrictions and to establish the total amount of imports subject to a monitoring procedure, the competent authorities of the Member States should submit at regular intervals statistical information of the licenses issued;

Whereas pending the establishment and smooth operation of the central computerized system it is necessary to provide, for a limited period of time, that Member States shall not issue import licences over a certain maximum amount of the total Community restrictions; whereas this maximum amount should be fixed proportionally and by taking into account the level of traditional trade flows with regard to the supplier country concerned;

Whereas it should be possible during this transitional period to allow for certain adjustments to be made to the maximum amounts provided for each Member State, so as to take account of the number of import applications submitted in the Member States as well as the level of utilization of each quantitative restriction concerned;

Whereas it is necessary to provide that a committee will assist the Commission for the purposes of implementation of this Regulation;

HAS ADOPTED THIS REGULATION:

General Principles

Article 1

1. This Regulation applies to imports of textile products falling within section XI of the Combined Nomenclature (and of other products) as listed in Annex I, originating in certain third countries.
2. For the purposes of paragraph 1, textiles products falling within Section XI of the Combined Nomenclature shall be classified in categories as set out in Annex I.
3. For the purposes of this Regulation, the term "originating products" and the methods for controlling the origin of those products shall be as defined by the relevant Community rules in force.

Article 2

1. This Regulation lays down the rules and procedures governing the administration of quantitative import restrictions and monitoring procedures established by the Community in the framework of protocols, bilateral agreements with supplier third countries pursuant to the Multi-fibre Arrangement in force or in the framework of arrangements or other specific import regimes in which a double-checking mechanism to control or to monitor imports is laid down.
2. Annex II indicates the quantitative restrictions in the agreements, protocols, arrangements or specific import regimes with the third countries referred to in paragraph 1 to which this Regulation applies. Annex III indicates the third countries and the categories of products subject to the monitoring procedures referred to in paragraph 1 to which this Regulation applies. Annex II and Annex III can be modified in accordance with the procedure laid down in Article 9.

Article 3

1. The release for free circulation into the Community of imports subject to quantitative restrictions or monitoring procedures referred to in Article 2 shall be subject to the presentation of an import authorization or equivalent document issued by the Member States' authorities in accordance with the procedures laid down in Council Regulation (EEC) no. 4136/86 on common rules for imports of certain textile products originating in third countries (1), as may be amended and implemented later on to take account of the establishment of the Internal Market.

2. The competent authorities of the Member States shall make sure that the quantities for which they issue an import license shall not exceed at any moment the total Community restrictions for each textile category and each third country concerned. For this purpose, the competent authorities shall issue an import authorization or an equivalent document only upon confirmation by the Commission of the European Communities that there is still quantity available of the total Community quota for the category of textile product and for the third country concerned for which the importer has submitted an application with the said authorities.

(1) O.J. L 387, 31.12.86, p. 42.

Specific rules for the administration
of Community import restrictions

Article 4

1. For the purpose of applying Article 3, paragraph 2, the competent authorities of the Member States shall submit a request to the Commission of the European Communities.
2. A request by the competent authorities shall be valid if it clearly establishes the supplier third country, the category of textile products concerned, the amount to be imported, the number of the export licence and the Member State in which the products are intended to be put into free circulation. The Commission shall notify the amounts of the Community quantitative restrictions, for which import licences can be issued by the competent authorities, in the chronological order in which the requests are received to it ("first come - first served" basis). In establishing the order of the requests, they shall be processed by the point in time and the date on which they are received by the Commission.
3. The competent authorities of the Member States shall submit their requests and the Commission shall notify its confirmation that there are amounts of the quantities available for importation either in writing or by telex, telefax or other means of communication such as electronics or telematics, provided that all the elements set out in paragraph 2 are clearly established.

Article 5

1. In the allocation of the Community quantitative restrictions referred to in Article 4, paragraph 1, the Commission shall allocate, as far as possible, the full amount indicated in the request submitted for each category of products and each third country concerned.
2. When more than one request is received at the same time by the Commission, exceeding the total quantity available under the Community import restriction concerned, the Commission shall carry out the allocation in proportion to the quantities applied for.

Article 6

1. The competent authorities shall notify the Commission immediately after being informed of any previously allocated quantity that is not used during the duration of validity of the import authorisation. Such unused quantities shall automatically be transferred into the remaining quantities of the total Community import restriction for each category of product and each third country concerned.

Transitional provisions

Article 7

1. Notwithstanding the provisions of Articles 3 to 5 above and pending the establishment and smooth operation of the computerized system for the administration at Community level of the import restrictions referred to in Article 2, the competent authorities shall make sure, when issuing import licenses for the period between 1 January to 31 March 1993, not to issue licenses in excess of maximum 9 per cent of the total Community import restriction for each product category and each third country concerned, except for Germany for which the maximum amount is fixed at 15 per cent, and for Greece, Ireland and Portugal for which the maximum amount is fixed at 5 per cent each. For the three Benelux states together the maximum amount is fixed at 9 per cent.
2. The remaining 16 per cent of each Community import restriction shall constitute, for the same period referred to in paragraph 1, a Community reserve quantity. The Commission may authorize out of this reserve quantity, upon a request of a Member State, amounts higher than those referred to in paragraph 1, if this is necessary to satisfy import licence applications.
3. When during the period referred to in paragraph 1, an application for an import licence is submitted with a Member State exceeding 30 per cent of the total Community import restriction for each category and each third country concerned, the competent Member State authority shall notify this matter immediately to the Commission. The Commission shall examine the matter within three days following such notification, in accordance with the procedure laid down in Article 9, in order to find the most appropriate solution in light of the level of utilisation of the import restriction in question.

4. During the period referred to in paragraph 1, the competent authorities shall communicate to the Commission at least every two weeks statistics of the total amount of quantities for each product category and each third country concerned for which they have issued import licenses.
5. The Commission may, in accordance with the procedure laid down in Article 9, review the time-limit of 31 March 1993 and the maximum amounts referred to in paragraph 1.

Article 8

Textile products covered by this Regulation and shipped before 1 January 1993 shall be governed by the provisions on issuing of import licenses in force at the time of their shipment. For the purposes of this Article, shipment of the products shall be considered as having taken place on the date on which they were loaded on the exporting aircraft, vehicle or vessel.

Decision-making and final provisions

Article 9

1. The Commission shall be assisted by a Committee composed of the representatives of the Member States and chaired by the representative of the Commission.

2. Where reference is made to the procedure laid down in this Article, the Chairman, on his own initiative or at the request of a Member State, shall refer the matter to the Committee.

The Commission representative shall lay draft measures before the Committee. The Committee shall deliver an opinion on the draft measures within a period which may be fixed by the Chairman in accordance with the degree of urgency of the matter. The Committee shall decide by the majority specified in Article 148(2) of the Treaty for the adoption of decisions by the Council on a proposal from the Commission. In the case of votes within the Committee, the votes of Member States' representatives shall be weighted in accordance with the above-mentioned Article. The Chairman shall not vote.

The Commission shall adopt the measures proposed where they are in conformity with the Committee's opinion.

Where the measures proposed are not in conformity with the Committee's opinion, or where no opinion has been given, the Commission shall present to the Council, without delay, a proposal for the measures to be taken. The Council shall act by a qualified majority.

Should the Council fail to take a decision within one month of the date on which the proposal was laid down before it, the Commission shall adopt the proposed measures.

3. At the request of the Chairman, acting on his own initiative or in response to a request from one of the Member States' representatives the Committee shall examine any other matter relating to the application of this Regulation.

Article 10

Amendments to this Regulation which may be necessary to take into account the conclusion, amendment or expiry of agreements or arrangements with third countries or amendments made to Community rules on statistics, customs arrangements or common rules for imports shall be adopted in accordance with the procedure laid down in Article 9.

Article 11

This Regulation shall enter into force on the day following that of its publication in the Official Journal of the European Communities.

It shall apply from 1 January 1993.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
